

ICE HALO - Worried about no more helmet? Ice Halo for added protection

Hello Parents,

What do you do when your skater has passed a minimum of Canskate Level 5 and doesn't want to wear a helmet anymore? The **Ice Halo** is the next option for their safety.

We now have **ICE HALO's** available at the club for your convenience. They are **only \$50** (tax and shipping in), a savings from ordering direct.

Some info about Ice Halo's

“Our primary customers are curlers and skaters because the Ice Halo does not interfere with timing, speed, spins or jumps and it will not interfere with your field of vision. They are tested using CSA and ASTM Hockey Helmet Testing Standards, exceeding requirements for front, side and back impacts. Ice Halo's are accepted worldwide by coaches, judges and clubs.” (quote from www.icehalo.ca)

If you are interested in purchasing a Halo please ask one of the board members (Barb, Darlene, Alison, Tina, Terri or Alana) and we would be glad to help you out. Or email us at info@uxbridgeskatingclub.com

We have them at the arena now so come get yours today!
